

**entrance markers**

- Entrance and directional / wayfinding signage for within the park & surrounds
- Possible rubbish bins and bike rack
- Feature trees planted at entrance and along existing path

**revegetation works**

- Revegetation works to nature reserve included in council program
- Weed removal to be undertaken along creek

**BBQ and picnic area**

- Existing BBQ and picnic area improved with larger shade and BBQ facilities for small and large groups
- Sensory garden trail for smaller children near main picnic area

**road safety for children**

- Existing asphalt area to be converted to road safety training for children on bikes with line markings and road signs to assist in safety
- Improve pedestrian crossing through carpark to broader areas in the park

**water play**

- Investigate feasibility for potential water play area

**nature play**

- Existing play area extended to picnic and BBQ area incorporated into a nature based play experience
- Nature play area through existing trees

**shared path**

- Existing vehicle entrance removed and converted into shared path for pedestrians and cyclists. Emergency vehicle access only

**open lawn with stage**

- Open lawn with slight topography
- Stage for small and large events
- Existing shade trees retained, and nature play extended (towards train)

**sculpture**

- Proposed location for new sculpture

**multi-activity area**

- Existing asphalt reconfigured into ball sports and skate area, with adventure play climbing and ropes course for all ages integrated with existing playground
- Incorporate tennis practice wall within multi-activity area

**proposed cafe, public toilet and community use**

- Former netball building retrofitted into cafe opening up onto the play and courts area
- Proposed location for new accessible public toilets and bike rack
- Investigate potential options to locate community group to former tennis building
- Possible small veggie/community garden near existing building

**BBQ and picnic area**

- BBQ and picnic area with shade and BBQ facilities for small and large groups
- Long table for workshops and community meals

**parking to King Street**

- Formalise car parking along park side of King Street, with accessible bays near park entrances

**entrance plaza**

- Entrance plaza, widened path with clear-trunk trees allowing free sightlines
- Entrance and directional and wayfinding signage for areas within the park and surrounds
- Path to be widened up to train crossing

**shared path**

- Proposed 3m wide shared path connecting from existing bus-stop through to northern BBQ and picnic area
- Connects existing buildings to play and social areas and provides clear access

**path circuit**

- Proposed paths connect shared pathway to existing circuit around sports field, creating varied loops for walking and training
- Raised pedestrian crossing to slow vehicles - potential to make area shared level zone in future

**future connection**

- Possible future connection over existing creek, to directly connect main oval with central park
- Improved pedestrian connection between ovals for additional car parking on high use days to share car parking arrangements
- Path connects to existing playground, with possibility for upgrade in the future

**spectators area**

- Spectators area expanded connecting area around circuit path and cricket nets
- Investigate option for bike parking
- New rubbish bins around oval

**dog off-lead area**

- Investigate possible dog-off lead area and potential fencing requirements

**entrance markers**

- Entrance and directional / wayfinding signage for areas within the park and surrounds
- Native trees planted at entrance and along existing path

**road widening**

- Investigate option to widen entrance road for two way traffic and single sided parallel car-parking. Ensure accessible bay near crossing point
- Ensure signage is clear from Mountain Highway for vehicles

**sculptural lawn**

- Mounded lawn area

**fencing**

- Improved fencing around playground
